PERSONAL OVERVIEW

I am excited to use my talents and passion for producing user-centered designs in a UI/UX Design position as a recent BSIT graduate. My practical projects have sharpened my ability to convert user needs into intuitive and engaging digital experiences, and my education has given me a strong foundation in design principles, user research, and prototyping. I'm dedicated to lifelong learning and work best in groups where I can contribute creative design ideas.

EXPERIENCE

SCRIBBLE CUBES CREATIVE DESIGN SERVICES INTERN
August 16, 2021 – September 10, 2021

- Helping to create prototypes and wireframes for digital products to visualize and test design concepts.
- Assisting with the creation of visual content, such as logos, brochures, social media graphics, and marketing materials.
- Contributing to the design of user interfaces for websites, mobile apps, and other digital products.
- Conducting user research, creating personas, and assisting with user testing to inform design decisions.

EASTWOODS COLLEGE OF SCIENCE AND TECHNOLOGY INTERN
August 08, 2022 – September 16, 2022

- Creating and managing content for the school's social media, and promotional materials.
- Providing basic IT support, troubleshooting, and helping maintain school computers and digital infrastructure.
- Contributing to the design of school publications, promotional materials, and the school's website.
- Organizing and supporting community service projects, partnerships, and school outreach programs.
